Relevamiento General de Riesgos Laborales

El **Relevamiento General de Riesgos Laborales (RGRL)** es una herramienta que contribuye al registro de información de forma detallada sobre los riesgos existentes en los distintos establecimientos y habilita a las ART a establecer diferentes canales de asesoramiento y capacitación en medidas de prevención específicas para los mismos.

Se debe presentar este formulario solo una vez por cada establecimiento y cuando se realice el alta de un nuevo establecimiento.

La presentación del mismo debe realizarse a través de nuestro canal de gestión online **BIART** al que se accede desde el home de nuestra web: **www.berkley.com.ar**

Una vez finalizada la carga en forma correcta en la columna **Gestión** observará el estado final de la carga que deberá indicar:

- Carga Completa (en 24 hs se cambiará a Informado a SRT)
- Incompleto (revisar)
- No cargado (cargar)
- Informado a SRT (estado final)
